

Talha Tanveer

SOFTWARE ENGINEER

talha.tanveer8158@gmail.com Lahore, Pakistan +923122188832

Profile

As a software engineer, I derive great satisfaction from constructing solutions from the ground up and addressing practical challenges. I embrace difficulties with a resilient mindset, recognizing that setbacks contribute to eventual success. My approach blends strategic thinking with diligent effort, ensuring the delivery of impactful solutions.

Employment History

Software Engineer, Nextbridge (Pvt.) Ltd,
Lahore

July 2022 — Present

- Assisted in project estimations and conducted in-depth requirement analysis, collaborating with stakeholders to define project objectives, scopes, and deliverables
- Designed a structured and scalable project architecture that emphasized modularization and separation of concerns.
- Configured and optimized the development environment to improve collaboration and productivity within the team.
- Developed highly interactive mobile applications using the latest technology stack.
- Responded promptly to critical issues.
- Deployed and maintained applications on cloud platforms, such as Amazon Web Services (AWS).

Project

I-Hunt

A platform enabling landowners to list hunting properties for reservation by users, with a mobile app/website facilitating property search, booking, GPS directions, and harvest reporting. Admin oversight for property approval, user management, and transactions.
URL: https://www.ihunt.com/
